Imperial College London

Corporate Partnership Programme Benefits

Recruitment
• Access to a database of student CVs seeking employment, internships and placements
• The opportunity to create an employer profile on the CPP web site, including a link to your careers pages
• The opportunity to deliver a technical presentation to our students as part of our timetabled 'Applications of Computing in Industry' lecture series programme
• Advertising of careers opportunities and events directly to our students (direct email, web pages, posters)
• Participation in our Industrial Placements programme
• Assistance with setting up and advertising summer internships
• Assistance with setting up PhD placements
• Distribution of employment literature and other materials in the students' common room
• The option to run on-campus interview days
• The opportunity to organise careers seminars for our students
Seminars & Networking Events
• Access to tailor made industrial seminars and networking events
• A priority invitation to Departmental events such as Finalists Project Prize Day
• The possibility of running an event for Alumni in partnership with the Department
Projects
• In conjunction with academics in the Department, the opportunity to supervise student projects
Academic Donations (Benefactor)
• Named prize(s) – advertised on our web pages
• Named scholarship or bursary – advertised on our web pages
• Mention of prize at Imperial's annual Commemoration Day ceremonies

Fee Structure

The Corporate Partnership Programme (CPP) membership fee is £1500 p.a. (incl VAT). Many of our Partners also choose to become Benefactors of the Department of Computing and typically make an additional VAT-free donation from £4500 per year. Monies raised will be used primarily for academic sponsorship to attract, reward and develop our best students via prizes, bursaries and scholarships.
