C: Preference of Group

Group project submissions are meant to be made on an individual basis. However, if a group of you have a strong preference to be together, choose one of you as a group coordinator. The coordinator should complete Section B, and all other members of the group enter that student's login here, and attach their form to the back of the group coordinator's form. The allocation of projects will attempt to keep the group together, to the detriment of giving you your preferred project. You may be given a project not on your preference list.
