

Segmentation of Left Atrial Wall Thickness Challenge

Statistical and Computational Modelling of the Heart (STACOM)

MAIN PROGRAMME

Monday, October 17th, 2016

Venue: VIP room, InterContinental Athenaeum, Athens, Greece

- 11:00 **Welcome and Introduction**
Professor Kawal Rhode, Biomedical Engineering, King's College London
- 11:05 **Left atrial wall segmentation and thickness measurement using region growing and marker-controlled geodesic active contour**
Shuman Jia, INRIA Sophia-Antipolis, Nice, France
- 11:20 **Left atrial wall segmentation using clinically correlated metrics**
Jiro Inoue, Robarts Institute, University of Western Ontario, Canada
- 11:35 **Automatic Left Atrial Wall Segmentation from Contrast-Enhanced CT Angiography Images**
Qian Tao, Leiden University Medical Center, Leiden, The Netherlands
- 11:50 **Challenge results and closing remarks**
Rashed Karim, Biomedical Engineering, King's College London
